

# Firestone

## AIRIDE

THE ORIGINAL AIR SPRING

# BENEFITS THAT MATTER

Firestone Airide™ Helper Springs are engineered to maximize the safe load-carrying capacity of most trucks, motor homes, SUVs, CUVs, and vans.

When paired with Air Command™ single or dual-path wireless controls, Firestone Airide delivers a complete towing and hauling solution—making every trip smoother, safer, and virtually stress-free.

Ride-Rite™ is the only air helper spring system built and backed by an iconic name in American automotive culture: Firestone.

**KEEPS HEADLIGHTS  
LEVELED UNDER LOAD**

**INCREASED STEERING  
CONTROL & BRAKING**

**ENHANCES  
RIDE COMFORT**

## Warranty

- Limited lifetime on air springs
- 2 years on kit components

## Quality

Over 80 years of rubber mastery, testing and manufacturing commercial grade and original equipment air springs.

## Engineered in the U.S.

All products are designed, assembled and distributed in the United States.

## Safety

Air helper springs help level your vehicle, enhancing stability, improving steering control, boosting braking performance, and preventing bottoming out under load.

## Comfort

A level vehicle keeps headlights on the road, and enhances ride comfort.

**PROTECTS CARGO  
FROM BOTTOMING OUT**

**ADDS STABILITY TO  
UNBALANCED LOADS**

## AIR HELPER SPRING KITS

### **RIDE-RITE™**

Air helper springs installed between the leaf spring suspension and frame of most 1/2, 3/4 and 1 ton pickup trucks.

### **RED LABEL™**

Air helper springs installed between the leaf spring suspension and frame of most 3/4 ton and 1 ton pickup trucks.

### **COIL-RITE™**

Air helper springs designed for cars, minivans, light trucks, SUVs, CUVs and RVs that have coil springs.

## **AIR COMMAND™**

Systems to easily control your air springs with wireless remote, app or analog toggles.

**RIDE-RITE™** AIR HELPER SPRING KIT

# HAULING MORE FEELS EVEN LIGHTER

Firestone Ride-Rite™ air springs are a proven solution designed to provide extra support to your vehicle's rear suspension when towing or hauling. Each kit includes air lines and individual valves for manual inflation—just like inflating a tire.

**BRACKETS**  
Designed specifically to fit your vehicle, using patented features to reduce installation time & complexity.

**ADVANCED MATERIALS**  
Built with a globally trusted Firestone compound formulation, widely relied upon by leading OEMs.

**AIR SPRING BELLOWS**  
Designed to handle the suspension's articulation while providing load support & ride comfort.

**BEAD PLATES**  
Steel plates provide a robust connection to the air spring brackets. Treated with a trivalent coating for exceptional resistance to corrosion.

<p><b>LOAD LEVELING*</b></p> <p>UP TO <b>5,000 lbs*</b></p>	<p><b>APPLICATION</b></p> <p>MOST <b>1/2 TON 3/4 TON 1 TON</b> VEHICLES WITH LEAF SPRINGS</p>	<p><b>MAX PRESSURE</b></p> <p><b>100 PSI</b></p>

**RED LABEL™** AIR HELPER SPRING KIT

# WHEN LIFE DEMANDS MORE

Firestone RED Label™ air springs take towing and hauling to the next level. With commercial grade components and higher max pressure and load leveling than Ride-Rite springs, you'll be able to take on the toughest tasks with confidence.

**ABSORBS EXTREME SHOCK**  
Capable of withstanding sudden left-to-right or side-to-side changes in suspension travel.

**AIR-ONLY DESIGN**  
Smooth ride and high performance, riding on a cushion of air.

**WORRY-FREE MAINTENANCE**  
Durable bellow won't rip or pull apart when suspended on a lift.

**LONG PRODUCT LIFE**  
Built to last using commercial-grade steel plates with rolled crimp design for a long life.

<b>LOAD LEVELING*</b>	<b>APPLICATION</b>	<b>MAX PRESSURE</b>

**COIL-RITE™** AIR HELPER SPRING KIT

# FOR THOSE WHO WON'T BE WEIGHED DOWN

Firestone Coil-Rite™ air springs are designed to fit inside existing coil springs, creating a variable spring rate for a variety of cars, minivans, light trucks, RVs, CUVs and SUVs. This assists your vehicle in braking and handling more effectively, even under significant weight and adverse road conditions.

**PUSH TO CONNECT FITTING**  
Enables the air line to be installed quickly and effortlessly.

**ENHANCED RIDE COMFORT**  
Coil-Rite helper springs reduce noise and vibration, ensuring a smoother ride under heavy loads.

**LONG PRODUCT LIFE**  
Molded polyurethane provides exceptional resistance to wear, abrasion and impact, ensuring durability even under the toughest conditions.

LOAD LEVELING*	APPLICATION	TEMPERATURE RATING
UP TO 2,000 lbs*	MOST CARS, MINIVANS, LIGHT TRUCKS, SUVS, CUVS & RVs WITH COIL SPRINGS	40°F (-4°C) TO 180°F (82°C)

AIR COMMAND™ SYSTEM

# COMMAND MORE OF THE ROAD

Firestone Airide Air Command™ systems provide a reliable, on-demand air source for your suspension—offering instant adjustability at your fingertips. Whether it's a flip of a switch, a click of a remote, or a tap on your smartphone, you can fine-tune your ride to match changing loads and road conditions.

Now available with self-leveling kits that automatically maintain optimal pressure for a level stance—plus, no-drill mounting plates make installation fast and hassle-free.

**AIR TANK**  
Method of instant inflation to manually fill tires or other external accessories (extreme kit only).

**ELECTRONIC CONTROL UNIT (ECU)**  
Sealed unit containing control board and manifold; Bluetooth allows connectivity with a remote or phone app.

**NO-DRILL MOUNTING PLATE**  
Air accessory plate to mount compressor, ECU, and tank.

**COMPRESSOR**  
Provides an on-board solution for inflating air springs and accessories.

## COMPRESSOR TYPES

### STANDARD DUTY

Best for moderate usage, including towing boats, trailers 20' or smaller, and medium loads.

### HEAVY DUTY

Best for everyday usage, 8-lug trucks, trailers larger than 20', slide-in campers, and heavy loads.

### EXTREME DUTY

Best for continuous usage, plus off-road or truck tire inflation. Includes 2-gallon air tank and 25' air hose.

## CONTROL TYPES

### ANALOG (Single & Dual)

Control the air pressure by a flip of the switch with a pressure gauge.

### WIRELESS REMOTE (Single & Dual)

Control the air pressure via Bluetooth® remote powered by a USB-C rechargeable lithium ion battery.

### WIRELESS APP (Single & Dual)

Control the air pressure via Bluetooth® with a free downloadable app on your compatible smartphone.

### SELF-LEVELING (Single & Dual)

The system controls/levels itself based on height sensors.

## ADD AIR COMMAND™ FOR EASY AIR SPRING CONTROL

- Wireless App, Wireless Remote, Analog, or Self-Leveling Options
- Standard, Heavy Duty and Extreme Duty Compressor Options
- Included No-Drill Air Accessory Mounting Kit For Easy Installation
- **Compatible with Ride-Rite, RED Label and Coil-Rite Springs**

**READY TO GET STARTED?**

- Find the right **Air Helper Spring Kit** for your vehicle.

**FIT YOUR RIDE**

[FIRESTONEAIRIDE.COM/KIT-SEARCH](https://www.firestoneairide.com/knit-search)

- Upgrade your experience and take the hassle out of controlling your air springs by adding the convenience of an **Air Command** onboard compressor kit.
- Power** your air springs. Firestone Airide offers three different compressor sizes based on how you plan on using your vehicle.
- Choose your path of **control**. Choose between analog and wireless (app and remote) controls that have the flexibility of single- or dual-path adjustability.
- Set up a dealer appointment or follow our DIY instructions for at-home installation.

## PARTS & ACCESSORIES

# THE BELLS AND WHISTLES

FIND YOUR PART

FIRESTONEAIRIDE.COM/AU-TOMOTIVE/AFTERMARKET/SERVICE-PARTS

### AIR TANKS

Firestone offers a wide selection of air tanks, ranging from 1/4 gallon to 20 gallons, that are coated to resist corrosion, tested to SAE J10 compliance and capable of 150 PSI maximum pressure.

### AIR COMPRESSORS

All Firestone air compressors are direct drive compressors (no oil or belts) that can be mounted in any position as long as they are in a clean-air location. Mounting holes are 3/16".

### ACCESSORIES & FITTINGS

Service parts include air fittings, switches, valves and more. Some common parts include bulk bags to give you the parts when you need them.

### AIR SPRINGS

Spring types include double convoluted, reversible sleeve and tapered sleeve. Use this section to determine replacement air springs or the right air spring for your custom build.

Need help identifying or replacing an individual part? Scan the code to visit our website for a complete catalog of parts and accessories.

## PRODUCT WARRANTY

# ENGINEERED ASSURANCE

Firestone Ride-Rite™ air springs are engineered for long-lasting durability—often outlasting suspension components like bushings or shocks. They are warranted to be free from material and workmanship defects for as long as the original purchaser owns the vehicle they were originally installed on.

Hardware and brackets included with the air springs are covered under a 24-month warranty from the original retail purchase date. Firestone may supply replacement parts for any warrantable components. Labor and other incidental costs are the responsibility of the consumer.

All air springs undergo factory inspection and pressure testing. Most claims are found to be the result of installation issues, external damage, or improper use—not manufacturing defects.

### PERIOD OF COVERAGE<sup>1</sup>

AIR SPRING	AIR COMPRESSOR	BRACKETS
LIFETIME <sup>2</sup>	2 YEARS <sup>3</sup>	2 YEARS
FITTINGS	ELECTRONICS	HARDWARE
2 YEARS	2 YEARS	2 YEARS

<sup>1</sup> Firestone reserves the right to modify product components, specifications, or designs at any time without obligation to retrofit previous versions. Firestone supplies air springs to other manufacturers; kits not manufactured by Firestone are covered under the original manufacturer's warranty.

<sup>2</sup> Air springs covered: Single convoluted, tapered sleeve, double convoluted, Coil-Rite air springs.

<sup>3</sup> Based on model. Check website for details.

## SUBMITTING A WARRANTY CLAIM

**WEB:** <https://www.firestoneairide.com/contact-us-warranty/>

**EMAIL:** [rrtech@fsip.com](mailto:rrtech@fsip.com)

Please include the following:

- Name
- Phone
- Address
- Vehicle Make/Model/Year/Trim level
- Kit part number, if known
- Where and when you purchased the kit
- Brief description of issue
- Photos are helpful in identifying part numbers and failure mode. If you cannot provide photos, Firestone can provide a shipping label for you to return the parts with a copy of the retail receipt for inspection.
- Product verification required; photos of claim can be used in lieu of returning defective product.

### WHAT'S NOT COVERED

This limited warranty does not cover:

- Labor or service charges
- Freight or customs fees
- Lost wages due to downtime
- Neglect, abuse, or misuse
- Improper installation or misapplication
- Failures caused by external conditions or interference
- Overloading or unauthorized product modifications
- Normal wear and tear
- Products purchased from non-authorized sources
- Custom or non-standard applications

# TOW LIKE A PRO

## ABOUT US

In 1938, Firestone revolutionized mobility by patenting the world's first air spring.

Today, we remain at the forefront of automotive innovation, driving advancements in sustainable transportation.

Firestone Ride-Rite™ air spring systems are trusted by towing and hauling enthusiasts for their ability to improve ride comfort, stability, and control. Designed to eliminate sag, sway, and bottoming out, Ride-Rite™ delivers a smoother, more confident ride under load.

As part of the Bridgestone family, Firestone operates globally with facilities across North and South America, Europe, and Asia—supporting customers worldwide and pushing the boundaries of air suspension technology.
